### PET 'N SHAPE DUCK TREATS TRANSFORM THE CATEGORY

Pet 'n Shape introduces a full line of healthy dog treats made with 100% natural duck fillets. These innovative new items transform and expand the healthy treats category. Duck items, known partially for being beneficial for dogs with sensitive stomachs, offer a new taste and texture that dogs of all breeds and ages love. As with their chicken treats, Pet 'n Shape's commitment to variety stands out while it maintains its natural and healthy standards. These treats have been proven to be a great benefit in training, rewarding, and pampering pooches.
