# Ingredients FAQ

Frequently asked questions about Pet 'n Shape's ingredients

---

**Q:** What is the benefit of the sweet potato used in the new product Chik 'n Sweet Potato?

**A:** The chewy sweet potato is high in antioxidants, vitamins, minerals, and fiber. Crunchy all natural chicken is wrapped around the sweet potato for extra benefits.

---

**Q:** What kind of rice is used in your products?

**A:** The products that include rice feature white rice.

---

**Q:** What type of rawhide is used in the Duck 'n Rice Dumbbells, Chik 'n Dumbbells and Chik 'n Skewers?

**A:** The material used in the Duck 'n Rice Dumbbells and the Chicken Dumbbells is a compressed rawhide munchie stick. In the Chik 'n Skewers, we use a rawhide chew. No materials used in Pet 'n Shape treats ever contain any formaldehyde or bleach.

---

**Q:** Why is a pork bone used in the Chik 'n Pork Bone?

**A:** The pork bone is a superior material because it does not splinter, like chicken bones. It provides a longer-lasting healthy treat and chew. You should always supervise your dog.
